Paris will prevail

The devastating damage to Notre Dame has released an emotional outpouring. Unfortunately, there will also be people and organizations seeking to take advantage. There will be several appeals for funds. Many will not be legitimate. Verification is important.

Can the cathedral come back? Look at the terrible fire at Our Lady of the Lake University eleven years ago. Our statue fell just as did Notre Dame's spire.

But, the citizens of the city joined and rebuilt. Look at the university now – better than ever.

The same will happen in Paris.
